REISSUE APPLICATION SUPPLEMENTAL DECLARATION BY THE ASSIGNEE

I, Denise Taliaferro, Esq. hereby declare that:

1. On information and belief, the residence, mailing address and citizenship of the inventors of the above-captioned application, which is a re-issue of U.S Patent 6,356,794, issued March 12, 2002, are stated below:

Inventor: Joseph C. PERIN, Jr.
Citizenship: USA
Residence/Mailing Address: 6479 Grand Vista, Cincinnati, Ohio 45213

Inventor: David G. WAGONER
Citizenship: USA
Residence/Mailing Address: 9614 Waterford Place, #310 Loveland, Ohio 45140

2. I am authorized to act on behalf of the assignee of the present application, GTECH Corporation, and the title of my position with said assignee is Senior Corporate Counsel. The entire title to the patent identified below is vested in said assignee.

3. I believe said inventor(s) to be the original and first inventor(s) of the subject matter which is described and claimed in said patent for which a reissue patent is sought on the invention entitled: **ITEM DISPENSING SYSTEM NETWORK**, the application for which was filed March 12, 2004, as reissue application number 10/800,356, as was amended by a preliminary amendment filed March 12, 2004, and for which a further amendment is filed herewith.

4. I have reviewed and understand the contents of the above identified application, including the claims, as amended by the preliminary amendment filed of March 12, 2004, and the amendment filed herewith. I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56. I verily believe the original patent to be wholly or partly inoperative or invalid, for at least the reasons described below:

The patentees claimed more than or less than they had the right to claim in the patent. Claim 39 recites a controller in communication with the lottery ticket dispenser and the fault store. Originally issued independent claims 1, 3, 4, 5, 8, 10, and 12 recite a controller which is in "electrical communication" with other claim elements. Accordingly claim 39 is broader than all of the originally filed claims.

5. All errors corrected in this reissue application, in the previously filed preliminary amendment, and in the amendment filed herewith, arose without any deceptive intention on the part of the applicant.

6. This is a broadening reissue.

7. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.
